SUMMARY

Junior Full Stack Developer with 3+ years of experience building scalable web applications using Laravel, React.js, and RESTful APIs. Proficient in front-end development with Tailwind CSS and back-end architecture with PHP & MySQL. Passionate about clean code, automation, and delivering seamless user experiences. Currently seeking remote opportunities to contribute globally while continuing to grow professionally.

WORK EXPERIENCE

Junior Full Stack Developer | Luminous Labs, Bangladesh

May 2023 – Present

- Built scalable web applications using Laravel and React.js, enhancing client delivery speed by 25%.
- Developed secure RESTful APIs and improved database performance by optimizing queries.
- Integrated WhatsApp Business API, enabling real-time support and boosting user engagement.
- Contributed to agile sprint planning and implemented features collaboratively with design teams.

PROJECTS

Droptienda – Laravel CMS Platform

Tech Stack: Laravel, JQuery, ajax, Bootstrap

A drag-and-drop CMS with full e-commerce functionality, built for entrepreneurs and dropshippers. I led backend integration and built the product import/export module.

TextCRM – WhatsApp CRM

Tech Stack: Laravel, React.js, Inertia.js, Tailwind, RESTful API

A centralized WhatsApp chat solution for businesses with chatbot flows, auto-reply, and media sharing. I handled integration with WhatsApp Web API and payment modules.
